

Dear Mr. President
Dear Friend

Association of dental association ilco RS from Banja Luka was founded in May 2008. The initiator of the Dragan Trivun that 17 years has established a ileostomy.

The association has 400 members. It is assumed that the Republic of Srpska has about 1800 people with disabilities derived.

Web site association is www.ilco-dental-rs.com

E-mail: trivun.dragan@gmail.com

The Association is a nonprofit, non-partisan and the financial balance is zero. Financial nobody helps us, even Banja Luka municipality or governmental agencies. We are located on the border of the justification of existence.

Often times think to stop working because it paid their money to be able plartiti office or phone. I visit patients in surgery in their own home, geriatric centers, radiology ... Our members are the two babies born without anal otvora. As a rule, fund health care, all patients have the right tools. Have only those whose cancer is a result-derived stomata.

I am a member of the commission for drafting regulations, trying to impose a solution in which all patients are eligible for aid.

I have patients from 33 cities of the Republic of Srpska.

Last year I made 700 visits to patients with their own car.

In Banja Luka, have leased office by paying € 75.

We have good cooperation with the Association ILCO Serbia, Slovenia and Croatia. They often donate supplies to us.

Dear Arne, The Federation nem registered association. They now have the one patient in Sarajevo and ask to help him to form a society. I am happy to answer it.

I would like to come to Ukraine at the conference and I would lead the patient from Sarajevo. Since we do not have the financial means asking you to help us in finding donors to fund part of the costs for us in Bosnia and Herzegovina.

I welcome you and thank you.

Banja Luka 23-03-2011.
